

# Feature Checklist: Countdown Timer

<p><b>Scenario</b></p>	<p>Setting a One-Off Lockout Timer</p>
<p><b>Given</b></p>	<p>User wants to create a lockout time on kids' devices and WiFi without creating a schedule</p>
<p><b>When</b></p>	<p>User accesses the lockout timer feature in the home automation interface</p> 
<p><b>Then</b></p>	<p>the user should be able to:</p> <ul style="list-style-type: none"> <li>• Select the specific time for the devices and WiFi to be locked.</li> <li>• See the time remaining until the lockout engages, cancel it or extend in 5 minute increments.</li> <li>• See the time remaining until the lockout ends, cancel it or extend in 5 minute increments.</li> </ul>
<p><b>Scenario</b></p>	<p>Delaying the 'Lock' timer</p>

<p><b>Given</b></p>	<p>The lock time has been delayed</p> 
<p><b>When</b></p>	<ol style="list-style-type: none"> <li>1. The <b>lock</b> time is before the selected <b>unlock</b> time</li> <li>2. The <b>lock</b> time is after the selected <b>unlock</b> time</li> </ol>
<p><b>Then</b></p>	<ol style="list-style-type: none"> <li>1. The <b>unlock</b> time remains the same</li> <li>2. The <b>unlock</b> time automatically sets to 5 minutes after the new <b>lock</b> time</li> </ol>

	<p><b>Good When</b></p>		<p><b>Bad When</b></p>
<p>▶</p>	<p>User can choose a period of time to set a one off lockout timer.</p>	<p>▶</p>	<p>A one off time is set as a schedule</p>
<p>▶</p>	<p>User can see the length of time until the timer begins or ends.</p>	<p>▶</p>	<p>User cannot extend the time until the timer starts, or end.</p>
	<p>User can cancel the time at any point, extend the timer in 5 minute increments and press cancel to exit the one-off timer function.</p>	<p>▶</p>	<p>User cannot cancel the timer at any point.</p>
<p>▶</p>	<p>The <b>unlock</b> time stays the same if the <b>lock</b> time is delayed to a time before it is set to unlock.</p>	<p>▶</p>	<p>The <b>unlock</b> time changes if the <b>lock</b> time is delayed to a time before it is set to unlock.</p>

▶	The <b>unlock</b> time automatically changes to five minutes after the <b>lock</b> time, if the lock time is set to after the original unlock time.	▶	The <b>unlock</b> remains the same, if the lock time is set to after the original unlock time.
---	---	---	--
